Apprenticeship Opportunities – Electricity Industry

Tenix is one of Australia’s leading infrastructure service providers. Tenix provide design, construction, maintenance, operation and asset management to the water, electricity, gas and industrial markets across Australia, New Zealand and the South Pacific.

In partnership with Apprenticeships Group Australia (AGA), Tenix is seeking to recruit Electrical Lineworkers and Underground Cable Jointers to be located in Eastern & Northern suburban Melbourne and the Mornington Peninsula.

Electrical Lineworkers install, repair and maintain overhead powerlines and cables carrying electricity to domestic, commercial and industrial users.

Underground Cable Jointers create and repair joins in power cables installed in underground trenches and pipes, as well as preparing cable terminations for electrical equipment and overhead lines.

Successful applicants will enjoy:
• Excellent terms and conditions
• The security and support provided by a company with more than 25 years experience in training and mentoring apprentices.

The electricity transmission and distribution industries provide rewarding long term careers and exciting development opportunities for successful candidates.

Candidates must have completed a minimum of Year 11 with sound passes in mathematics and English. We are looking for candidates with a mechanical aptitude, strong work ethic who enjoy working outdoors and ability to work at heights.

Position descriptions are available along with application forms by visiting www.agaustralia.com.au/careers or by calling 1300 242 000.

Applications close: Friday 9th September
Successful candidates will commence early 2012.

Power your career in Electrical Distribution.
