

# Attendance Policy

## Rationale

Student learning is maximised by student attendance of timetabled classes.

## Guiding Principles

Students are expected to attend all timetabled classes and school activities.

Students must achieve a 90% Attendance Rate to satisfy course requirements at all year levels.

Student attendance will be monitored and recorded and absences followed up with parents or carers.

Attendance requirements and the consequences of unsatisfactory Attendance Rates will be clearly communicated to students, their parents or carers and the teaching staff.

## Absences

Absences are classified as either explained or unexplained.

Explained absences include:

- illness with a medical certificate,
- attendance at an approved College activity e.g. a meeting with teachers or welfare staff, an instrumental music or a drama production, a camp, an excursion or a sporting event, instead of a timetabled class,
- suspension from school, and
- absence as a result of overseas travel or a serious family issues of which the College has been notified.

An explanation will be sought for all unexplained absences.

## Attendance Rates

Attendance Rates will be calculated as a percentage of *the number of classes attended* divided by *the total number of classes*. Our current procedure for calculating attendance rates includes *explained absences* in *the total number of classes attended*. Therefore, only *unexplained absences* decrease attendance rates.

However, a large number of explained absences may still result in non-completion of a VCE/VCAL/VET unit or the unsatisfactory completion of a year of study e.g. a long period of illness or overseas travel.

## Consequences of Unsatisfactory Attendance Rates

Students not achieving Attendance Rates of 90% will be closely monitored and if this occurs in a number of subjects, action will be taken in line with the College Promotion Policy.

A VCE/VCAL/VET student not achieving an Attendance Rate of 90% for a unit will receive an N result for that unit. The student will be interviewed by a Team Leader, Campus Principal or nominee and the Subject Teacher, and/or the College Promotion Panel. They may then recommend removal from the subject, repeating the unit, consideration of redemption or upholding the N result.

## Implementation

Teachers monitor and record student attendance for each lesson, maintain an accurate personal class roll and pass on details of student absences through the College Attendance System. Particular staff have additional responsibilities in relation to student absence.

Any unexplained absence is a cause of concern and needs to be followed up by the Subject, Homegroup or Mentor Teacher, Team Leader and Welfare staff as appropriate.

Students must inform teachers of upcoming known absences, provide notes from parents or carers, provide medical certificates for illnesses or discuss causes of absences with Team Leaders, catch up as required, and, if eligible, apply for the re-scheduling of any missed assessments.

The College Attendance System will assist all teachers to have knowledge about explained absences.
